

# Queens DRIVE-IN

*Let's all go to the movies again!*

Queens Drive-In, co-presented by Museum of the Moving Image, Rooftop Films and NYSCI is available for private events on Monday and Tuesday evenings through November 30.

Socially distanced and fun, our Drive-In offers the perfect opportunity for friends and colleagues who have been working remotely to enjoy the communal experience of watching a film from the safety of their vehicles.

You can customize this family-friendly activity with a wide range of available films. Upgrades include: catering packages, luxury comfort stations, pre-show trivia with custom questions tailored to your group, and much more.

This experience is perfect for corporate outings, employee appreciation events, company picnics, incentive programs, and family nights.

The Drive-In is located in Flushing Meadows Corona Park on the grounds of the New York Hall of Science, easy to reach in central Queens. Take the 108th Street exit off of the Long Island Expressway. The Queens Drive-In can accommodate up to 175 cars. Screenings begin at dusk. A buyout of the Drive-In starts at \$25,000.
